RESUME QUALITY

Executive Assessment

Your resume achieves an ATS Compatibility Score of 71.5/100 and a Job Match of 62.9% for the Senior Backend Engineer role at Stripe. We identified 12 matching keywords and 4 skill gap areas. Applying the recommended bullet points and adding the high-priority missing terms will significantly boost interview callbacks.

Keyword & Technical Coverage

Critical Missing:	None! Excellent core keyword alignment.
Recommended Additions:	GO, Django, Kubernetes, AWS, Api Security
Successfully Matched:	Python, Java, SQL, Fastapi, Postgresql, Redis, Docker, Ci/Cd, Rest Apis, Microservices

ATS Formatting & Structural Compliance

Audit Category	Status	Finding & Action
Multi-column layout	PASSED	Single-column structure confirmed: Standard linear layout ensures ATS scanners parse your experience chronologically without disruption.
Tables	PASSED	No table structures detected: Text flows cleanly without nested table structures.
Graphics	PASSED	Clean vector typography without raster graphics: No unreadable graphical elements found.
Contact information	PASSED	Complete contact information detected: Email (candidate@example.com) and phone number are clearly parsable.
Section headings	PASSED	Standard ATS-friendly section headers: All key sections (Experience, Education, Skills) are standard and recognized.
Resume length	PASSED	Optimal resume length (400 words): Length is well-calibrated for comprehensive ATS scanning and recruiter review.

Priority Action Items

- [Skills] Enhance Cloud & Infrastructure keywords:** Add AWS or Docker skills directly into your technical summary.
- [Experience] Quantify bullet points with outcome metrics:** Rewrite bullets following the formula: [Action Verb] + [Task/Scope] + [Result with Metric % or \$].

3. [Formatting] Ensure 100% single-column ATS compatibility: Verify contact information is placed in the primary body flow rather than embedded in graphical headers.

4. [Summary] Align resume header with target role: Senior Backend Engineer: Tailor your headline to explicitly mention 'Senior Backend Engineer' to boost recruiter search relevancy.
